### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The claims in this application have been allowed because the prior art does not disclose a flexible restraint layer including first and second circumferential strap assemblies disposed on and fastened to opposing distal ends of a radial strap assembly; a plurality of axial straps having opposing loop ends; and guides on the circumferential and radial strap assemblies receiving the axial straps, with the flexible restraint layer being disposed substantially between the fore and aft assemblies of an inflatable modular structure and covering an inflatable bladder. The enclosures of prior art patents employ, for example, inflatable panels interlocked with helical coils; interconnected pleated portions similar to air mattresses; and inflatable fabric structures forming chambers. None have the particular structure as recited in claim 1 of the instant invention.

Any comments considered necessary by applicants must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
